Department Commander

Tricia Thurston asks that each  
Post and Legionnaire support her goal!

## Mission Working Dogs

**Their MISSION:** To improve the lives of their community members who are living with a disability by providing them with properly trained service dogs to help them live more independently despite a physical disability and by providing therapy dogs which will bring mental well-being to the people of Maine such as those in nursing homes, hospitals, and schools.

**Their VISION:** At Mission Working Dogs, we train purpose-bred dogs to aid individuals with disabilities so that the handler can live a life to the fullest and more independently.

**Their GOAL:** Service dogs can assist those with physical disabilities such as mobility impairments by fetching dropped items, opening doors, and turning on and off lights. They can also help individuals with PTSD by learning to recognize an increase in anxiety, carrying medications, and providing deep pressure therapy to calm or redirect the handler. Dogs working as facility dogs are often trained to recognize a patient's affected side in the case of a stroke and to approach on the side the patient is able to pet with or throw the ball. Patients are able to work on fine motor movements in petting or caring for the dog as well as gross motor skills playing fetch with a dog that's able to bring the ball exactly to where the patient needs, such as on a side table or directly into their hand, rather than on the ground or trying to play tug with it inappropriately.

**Their PLAN:** Service dogs are generally trained for approximately two years and undergo a wide range of assessments on their physical health, temperament, and tasks or skills to make sure they can properly support their handler throughout life.

Today, the #1 issue facing those who served is veteran suicide. According to the National Veteran Suicide Prevention Annual Report, 17 veterans still die by suicide each day, or more than 6,000 each year. The rate of suicide for veterans is more than 50% higher than that of non-veteran adults.

The American Legion is activating a national platform to end veteran suicide. The Be the One campaign will: Destigmatize asking for mental health support, creating opportunities for those with mental health issues to speak freely and get the support they need; Provide peer-to-peer support and resources in local communities; Deploy FDA-approved therapeutics for veterans to identify issues and find resources for support.

-Nia Peoples

The Maine American Legion College originally was a student commitment to 3 weekends per year. To assist Legion members with their busy schedules and other commitments, the 2024 American Legion College will assess a condensed 3-day college. Evaluating the waters to see what is best for members.

This year’s college will be Friday, October 18<sup>th</sup> to Sunday, October 21<sup>st</sup>.

Maine American Legion College will enhance knowledge and appreciation of The American Legion and teach the core values and contributions of the organization. The curriculum challenges student leaders to think critically and creatively about issues confronting The American Legion.

The curriculum is administered by graduate facilitators of the National American Legion College. We will cover Legion history, leadership traits, putting good practice to use, and active participation in practice ceremonies and hands-on exercises. Topics include public outreach, fundraising strategies, community relations, and a bonus is the network created with fellow students.

The course work makes students more valuable to their posts and departments, increasing effectiveness and productivity.

## AMERICAN LEGION, MEMBERS OF CONGRESS TO HONOR PACT ACT ANNIVERSARY

The American Legion, JUL 09, 2024

The American Legion will host a special panel discussion Thursday on Capitol Hill in conjunction with the second anniversary of the passage of the Sgt. First Class Heath Robinson Honoring our Promising to Address Comprehensive Toxins (PACT) Act.

In August 2022, President Joe Biden signed the bipartisan legislation, which was championed by The American Legion. The law has ushered in a range of VA health-care options and benefits for millions of veterans who were exposed to burn pits, Agent Orange and other toxins.

On Thursday, The American Legion will foster a discussion on how the VA has reached over 1 million veterans in screenings for toxic exposure and what efforts are underway to efficiently triage veterans who are identified as exposed to burn pits and experiencing symptoms.

This special panel discussion will feature the wife of Sgt. First Class Heath Robinson, Danielle Robinson, members of Congress, VA's executive director for the PACT Act, an Iraq War veteran and medical professionals who have studied toxic exposure. American Legion Legislative Director Julia Mathis will moderate the panel.

The event will be from noon to 1 p.m. July 11 at the House Veterans Affairs Committee Room, 364 Cannon House Office Building, Washington, DC.

Among those expected to participate are:

- Rep. Greg Murphy, R-N.C., House Veterans Affairs Health Subcommittee member
- Rep. Chris Pappas, D-N.H., House Veterans Affairs Disability Assistance and Memorial Affairs Subcommittee ranking member
- Panel participants such as retired Army Col. Steve Miska, who is VA's executive director of the PACT Act; Danielle Robinson, the wife of Sgt. First Class Heath Robinson; Army veteran Cynthia Daniels, who suffered toxic exposure in Iraq; Dr. Robert Miller, who connected toxic lung injuries in veterans to exposure to burn pits; and Dr. Trishul Siddharthan, who has conducted clinical trials on toxic exposures.

## AMERICAN LEGION STAFFER PRESENTS AT NATO SUMMIT

The American Legion, JUL 011, 2024

American Legion National Security Director Mario Marquez, a retired Marine Corps sergeant major, presented at the NATO (North Atlantic Treaty Organization) Public Forum on July 10 in Washington, D.C.

The discussion, featuring Marquez and Canadian Lt. Col Melanie Lake, focused on their experiences while serving under NATO. Marquez, who served for 31 years, was in Kosovo under NATO forces, did four tours in Iraq and two earthquake areas in Japan. Lake, a combat engineer, served 3 tours in Afghanistan and commanded Canada's training mission in Ukraine.

Marquez expressed appreciation for NATO's support of the U.S. in the aftermath of the 9/11 attacks. "That was the only time that Article 5 has ever been invoked by NATO," he said. "We are grateful for that and we will never forget it."

Lake noted a similar feeling in February 2022 when Russia invaded Ukraine, where she had been four months earlier. "I had the feeling that we had to do everything we can do to help our Ukrainian partners as they defend their democracy — and ours."

This year marks the 75th anniversary of NATO's formation when 12 countries signed the historic agreement in Washington, ensuring their collective defense in a volatile world.

Since then, NATO has expanded to 32 allies. They are meeting this week in Washington to make key decisions on steps to protect their one billion citizens as the world faces its most dangerous security environment since the Cold War.

Marquez discussed his first exposure to NATO, while he was serving in Kosovo. He recalled the support from German and Austrian troops who were already there. "We seamlessly began operations like we had been operating together for years," he said. "I will never forget that. It allowed us to serve the people of Kosovo much better."

Lake recalled when Kabul fell back into the hands of the Taliban. Like most Afghanistan veterans she questioned whether all the efforts were worth it but then found hope.

"It was the Afghanistan women who said, 'this gave us 20 years to pursue our education, get jobs and be a part of public life here.' And we've seen what our country can be and we're not willing to give up on that.' Right now, they are the fiercest resistance the Taliban is facing, both at home and at exile around the world."

## SUMMER VACATION COMPUTER JOKES SURE TO MAKE YOU GROAN

- ☺ My boss calls me “the computer”. Nothing to do with intelligence, I go to sleep if left unattended for 15 minutes.
- ☺ How did the computer hackers get away from the scene of the crime? I think they just ransomware.
- ☺ If your computer isn't working properly and you don't understand why just hit it a bunch of times with a hammer. It still won't work properly, but at least you'll understand why.
- ☺ If you think that your computer, laptop and phone spying on you is scary then think again, because your vacuum cleaner has been gathering dirt on you for years.
- ☺ A computer goes up to a guy at a restaurant... It says, “I'll be your server today.”
- ☺ My computer crashed a few hours into writing my paper. Looks like I'm gonna have to write my name and the date again
- ☺ The oldest computer can be traced to Adam and Eve. Yes, it was an Apple. But with an extremely limited memory. Just one byte. Then everything crashed.
- ☺ Life before the computer: Memory was something that you lost with age. An application was for employment. A program was a TV show. A cursor used profanity. A keyboard was a piano. A web was a spider's home. A virus was the flu. A CD was a bank account. A hard drive was a long trip on the road.
- ☺ Yeah, I lost to my computer at chess. But it turned out to be no match for me at kickboxing.
